

TOTAL LUBRICATION SOLUTIONS

DEFENCE STANDARDS

Total Lubrication Solutions

Established since 1970s, Tecsia Lubricants delivers quality lubrication solutions customised to your industrial requirements. Industries where we specialise in range from aerospace, military, navy, offshore, food processing, pharmaceutical to marine industries and many others. Our synthetic and specialty lubricants are approved and widely used in industrial productions and maintenance applications.

One Stop Lubricant Supply

Tecsia Lubricants delivers comprehensive range of chemicals and lubricants and application consultancy, technical support, training as well as quality synthetic lubricant products customised to your military specifications. Ultimately, we are a total lubrication solutions provider.

Partnering with Tecsia Lubricants, you can look forward to efficient operations and processes in your area of military expertise.

Technical Support

Our technical support team consists of experienced and certified lubricant consultants. We constantly ensure that our clients' lubrication requirements in military operations are fully met. Lubrication training is provided and we work closely with clients to cater to their military standards.
