

CORPORATE PROFILE

About Us

Established since 1970s, Tecsia Lubricants prides ourselves as a highly preferred lubrication solutions provider. Synthetic and specialty lubricants we provide are approved by reputable certification bodies. Industries, internationally, ranging from aerospace, military to food processing and so on have remarkably accepted and used our solutions for approximately thirty years and counting.

Our value towards clients comprises of application consultancy, technical support, trainings, seminars, workshops and innovatively engineered synthetic lubricant products customised to industrial standards. These are delivered by our team of highly experienced and certified lubrication specialists all year round.

Ultimately, we are a “One Stop Lubrication Supply” catering to all lubrication needs, our clients can look forward to efficient operations and processes in their area of expertise.

Our Mission

To always satisfy our customers with **quality products** and **solutions** that meet or exceed their expectations and requirements.

What We Do

Our solutions increase clients' competitive advantage and our value comprises of:

TURNKEY SOLUTIONS that improve application reliability, lengthen re-lubrication intervals, minimise unscheduled downtime, reduce maintenance costs and so on.

EXPERTISE AND KNOWLEDGE of our certified and experienced lubrication specialists. With us, clients can expect delivery of documented lubrication performance analysis through our inspections, lubrication trainings, seminars, workshops, troubleshootings, root cause failure analysis results and provision of trusted lubrication instructions.

LUBRICATION TECHNICAL SERVICES that help achieve applications' peak performances by providing advance warning of abnormal conditions that could contribute to equipment or lubricant degradation.

CORPORATE PROFILE

Turnkey Lubrication Solutions

Our services and comprehensive lubricant product range ensure longer equipment life, reduced overall maintenance costs and better cost saving strategies.

Together with our technical support and turnkey lubrication solutions, clients are provided with an ease of mind.

Specialty Lubricants

CORPORATE PROFILE

Certifications

International Organization for Standardization

Certification No. 160316

Certification No. 190051

The critical foundation of Tecsia Lubricants Pte Ltd is our quality management system. Our company's culture nurtures every employee according to our objectives, mission statement and valuable processes. By employing such a system, clients are thus able to achieve maximum dedication and first-rate services from us.

Our quality management system is certified with ISO 9001:2008. In addition to this, we are also certified with ISO 14001:2004 environmental management system. Implementing a process-based approach has enabled us to develop a routine that continuously improves our organization. Assurance is what we offer our clients and employees alongside with our reputable accreditation.

Certified Lubrication Specialist Program

The Society of Tribologists & Lubrication Engineers standardises the body of knowledge which a lubrication specialist must possess, and certifies individuals whom demonstrate expertise in critical areas of lubrication technology.

This expertise is extremely broad-based and covers knowledge of lubrication ranging from fundamentals to lubrication of gears, bearings, seals, lubricant manufacturing processes, lubricant analysis, metalworking, storage and handling, condition monitoring and several other key information.

At Tecsia Lubricants, our technical team consists of Certified Lubrication Specialists for clients to enjoy the best services and technical advice about lubrication issues.
